SCHOOL BOARD

WANTS GROUND.

Board of Education Asks Council For Exposition Square.

A NEW ELECTRIC RAILWAY.

Request for a Franchise to Operate One Between Salt Lake City and Ogden—Width of Sidewalks.

At the meeting of the city council last evening a communication was received from the board of education stating that the board had instructed their committee on buildings and grounds to confer with the mayor and members of the council to obtain a proposition as to what terms the board can purchase the old exposition grounds. The council was asked to appoint a time and place for the conference. Upon motion of Hewlett the communication was referred to the committee on public grounds with the mayor and land and water commissioner associated to negotiate with the board of education and report to the council.

The Sugar House Floral and Seed company asked that they be permitted to purchase for a reasonable sum the strip of land, formerly used by the Utah Central railway, lying between their property, on Eleventh East and Wilson streets, on the Jordan and Salt Lake canal. Referred to committee on public grounds with the committee on Jordan canal associated.

The Salt Lake city company presented a petition asking that they be allowed to extend the railway spur from the Condon sampling works across Fourth West street and over their property, which is situated between the street and the Ninth South. Referred to committee on streets.

NEW ELECTRIC RAILWAY.

E. E. Plattery and J. P. McCarron, of Detroit, and G. A. Gibbs, of Salt Lake, presented a petition for a franchise to construct and operate an electric railway through and from Salt Lake northward through the Jordan valley to Ogden. The petitioners state that they will do a general passenger and express business and will build a first class roadbed on the Jordan valley, obtain high speed, that they will have and arrive at terminals at frequent intervals and thus bring the cities in Salt Lake, Davis and Weber counties into closer communication. They state further that they have secured a survey of their road and will commence the construction as soon as they can secure the right of way. According to the ordinance as presented by the petitioners the route of the railway shall be from the intersection of First West and Third South streets, running thence north to the Jordan valley, and thence northward through said property along the east line of the county road to the northern limits of the city. The petition was referred to the committee on public grounds with the committee on Jordan canal associated.

SALE OF STATE LANDS.

Over Three Thousand Acres Disposed Of in Carbon County.

State Land Commissioner T. D. Rees has returned from Price in the vicinity he has been conducting a sale of state lands. The sale only lasted but one day and involved 3,700 acres from which the state, in the course of time, will realize about \$100,000, or a little less than \$3 an acre. The land is located in various parts of Carbon county, including the oil district. One of the largest purchasers was Major Bird, who is supposed to be representing some large oil interests.

The buyers who are expected to pay 10 per cent of the purchase price down will be allowed ten years in which to pay the balance. The funds thus realized by the state will go to the schools.

SOCIAL AND PERSONAL.

Mrs. Percy Somers Cocks and Mr. Francis Leon Woodman, assisted by Mr. George Skelton, gave a delightful musical recital last night at the Congregational church, a large audience assembling to enjoy the evening. The program opened with Maccheroni's "Ave Maria," with violin obligato, Mrs. Cocks, and the song in religious style. This, with the three charming songs by Mr. Woodman, and "The Year at the Spring" were perhaps the favorites, though the three ballads, "Kathleen Macvarra," "Moore's Farewell," and "When You Welcome the Hour," and the pretty Irish love song were greatly enjoyed. Mr. Woodman's recital was marked by the brilliant and artistic finish which usually distinguishes his playing, and Mr. Skelton's violin renditions were especially appreciated. Greg's Sonata for piano and violin giving his talent, excellent play. The entire program was delightful and much enjoyed by those present.

Mrs. Thomas Jennings and Miss Hatte Jennings, who have been visiting with Mrs. Brant Wells in Chicago, returned yesterday accompanied by Mrs. Wells, who will remain here until the end of the month when she will return with her husband to the Philippines.

The hop at Fort Douglas last night was of the social and of the season, the affair being brilliant and delightful in all details.

A choir benefit dance will be given in the Twenty-third ward hall tomorrow evening. The following young people are arranging for it: Helena Walsh, Florence Foulger, Eva Hudson, Annie M. Owen, Jos. A. Williams, W. P. Poulton, Jr., and O. S. Walsh.

The regular meeting of the Ladies' Literary club will be held Friday afternoon. The topic will be "Provincialism in American Fiction," Mrs. Reed will treat of the South, Mrs. White the East, and Mrs. Wallace the West.

MORNING.

THE BIRTHDAY OF ABRAHAM LINCOLN.

In 1809, Lincoln's natal year, a number of other great men were born, among them Gladstone, Tennyson, Holmes and Darwin. Pope Leo XIII, was born the following year, Bismarck in 1815 and Queen Victoria in 1819. Jefferson Davis, Lincoln's opponent in the titanic struggle of the civil war, was born in Kentucky about a hundred miles from Lincoln's old home eight months preceding Lincoln.

COMING SUMMER AT SALT PALACE

Mr. Heath, the Principal Owner, Not Yet Decided What He Will Do With Property, Except That He Will Rent it to Some Responsible Person or Persons.

With the temporary advent of warm weather, the sight of the dome of the Salt Palace looms up among the leafless trees suggesting experiences of the coming summer there. The entire property belongs now to Fred R. Heath, and the J. B. Walker estate in the proportion of two-thirds and one-third respectively. According to the terms of the contract when the first Salt Palace association took hold three years ago, Messrs. Heath and Walker were to retain possession of the land with all the buildings and improvements at the expiration of three years with no rent to pay in return for the buildings. But in view of the improvements made last season by Mr. Heath and the Walker estate, the fact that nothing was going on there after October 1, the last association management surrendered the property to Mr. Heath on this last date. The land originally was devoted to garden farming, and includes 15 acres, with the buildings now on the grounds, is valued at \$30,000 to \$75,000.

He has made a few changes this winter in the building plant, such as putting in the doors in the alcoves under the pavilion piazzas, and will put iron on the lower floors of the big building. The electric fountain was put in last season at the expense of the leases, and Mr. Heath says that while it is too early as yet to make explicit statements as to what will be done, the way of improvements and attractions the coming season, he is warranted in saying that the plant will be let out to some thoroughly good and reliable manager, the buildings will all be in first class condition, and there is no reason why the season of 1902 should not eclipse the seasons preceding.

MEMORIAL FOR HERO.

Son of Major Wilkes of Salt Lake to Be Properly Remembered.

A Detroit paper prints a story of the sacrifices of the late Commander Gilbert Wilkes of the Michigan naval reserves and son of Major Edmund Wilkes of this city. The account states that the reserves propose to establish a memorial for the brave and talented young man who sacrificed his business, family and finally his life when he led his beloved Michigan naval militia to the Spanish-American war.

Thirteen precious years of service in the regular army had brought on him difficulties, so that when the war broke out Mr. Wilkes had retired and was in business at Detroit; but he said: "The government has given me my education. It looks to all officers who leave the country out, and I must go." Commander Wilkes was the youngest boy to enter Annapolis, and electrical engineering and his specialty afterward. He was particularly valuable in organizing the naval reserves.

As was feared, hard service under Admiral Sampson during the Porto Rico campaign and Cuban campaign as commanding officer of the "Yosemite," brought on a fatal attack of his old difficulty to which he succumbed about a year ago. Major Wilkes has just been notified that the court of claims has awarded to the Michigan naval reserves \$50,000 prize money for the battle before San Juan, though the money has still to be appropriated by Congress. Of this amount \$25,000 goes to Admiral Sampson, \$10,000 to his fleet captain, \$7,500 to Captain Emery, and the remainder is to be distributed among the "Yosemites," men pro rata according to pay. It has been proposed in Detroit that the prize money the men expect to receive be used as scholarships for the late commander's children. A peculiarity of the "Yosemites" crew was that they were mostly millionaires, and yet serving as ordinary enlisted sailors.

CANNOT REVOKE LICENSE.

If the Saloons Were There—First Opinion of Attorney-General Breeden.

Difficulties have arisen in Junction City in relation to the state law that provides that the county commissioners cannot grant a license for the sale of intoxicants within 300 feet of a school that is in operation. County Attorney Sprague of Platte has forwarded a question to Attorney-General Breeden, asking if school trustees can lease a building for school purposes within 300 feet of a saloon and then compel the county commissioners to revoke the license of the saloon. Major Breeden advances in an emphatic manner the opinion that the commissioners
